## SMS | Host 2023r1

This document identifies all known issues addressed in  
SMS|Host 2023r1, through Build # 0121.

Document #1021440, Rev. 2.4

© 2023, Gary Jonas Computing Ltd. All Rights Reserved.

This document identifies all issues addressed in <sup>SMS</sup>|Host and <sup>SMS</sup>|POS 2023r1 (version number 22.820417). Issues are grouped by <sup>SMS</sup>|Host module below. Each issue is listed below with the issue number, brief description, associated case number(s), and the first build in which it is included.

## Automated Night Audit

Issue	Description	Case(s)	Build
406	Improve automated night audit run UI launch performance	885777, 893355	22.82.0417.0017
602	Charge on OUT reservation Error: 1924 LOREQ is not an object. Line 7244 (FP)	897916	22.82.0417.0035
630	Suppress MOTO flag when processing charge on day of arrival before check-in (FP only)	895339	22.82.0417.0035
673	Property LSKIPRESULT is not found processing CC with activate card reader	899386, 900078, 900352, 900694	22.82.0417.0035
1007	Fix invalid config for F/L/E/1 Path to Save Batch Reports which causes error in ANA	908460	22.82.0417.0084
1296	Added support in automated night audit to handle batch report folder manipulation by user	915523	22.82.0417.0105

## Booking Center

Issue	Description	Case(s)	Build
1605	Blank guest tile is being attached to an itinerary incorrectly	919881, 920145	22.82.0417.0121

## Channel Manager

Issue	Description	Case(s)	Build
683	Channelrateplaninquiry error when channel rate plan performance engine is enabled	900682	22.82.0417.0035

## City Ledgers

Issue	Description	Case(s)	Build
597	Unable to close city ledger without having to change the end date if it is after system date	897530	22.82.0417.0027

## Correspondence

Issue	Description	Case(s)	Build
024405	Preview & Send not working when checking out res and sending email folio	883358	22.82.0417.0017
152	[024529] Use Word less frequently for email correspondence	882195, 883245, 883859, 885355, 890216	22.82.0417.0017
265	[023305] LSPASKD2 variable alignment issue with various fields	860903	22.82.0417.0017
475	LIATA & LIATTAA variables do not appear to work	895221	22.82.0417.0017
852	Support the use of the ampersand (&) character in email subject line	905188	22.82.0417.0066
902	Addressed issue where correspondence variables were required to be written in upper case	906294	22.82.0417.0074

1010	Addressed issue with two owner variables displaying incorrect information in correspondence	908836	22.82.0417.0084
------	---	--------	-----------------

### Credit Cards

Issue	Description	Case(s)	Build
404	CC posting incorrect amount if auth screen not cleared before posting to another account	869503, 886359, 887605, 892536	22.82.0417.0017
509	Error 1098 No Primary key defined for CRCANPOS running cc token maintenance	895829	22.82.0417.0017
596	Suppress MOTO flag when processing charge on INH reservation	895339	22.82.0417.0027
702	FreedomPay Gift card partial redemption posted amount is incorrect	898476	22.82.0417.0059
1033	Add logging to the reservation checkout auth reversal function.	907258	22.82.0417.0084
1194	Addressed issue with CC Surcharge not being included in the amount posted to Itinerary	913828	22.82.0417.0093
1338	Credit card surcharge is not posting during check out correctly	917969	22.82.0417.0121

### Digital Reception / Digital Registration

Issue	Description	Case(s)	Build
744	Error 202 "Invalid path or file name" TbSigCap.BuildRegCardLocally	903023	22.82.0417.0045
1168	Resolved "invalid PDF" error in Digital Reception when zero-byte PDF created by R&R	909845	22.82.0417.0088
1195	Digital Reception does not update new email address as Primary	913513	22.82.0417.0093
1307	Addressed issue where Send email window hidden by Digital Reception window right after registration completion	917843	22.82.0417.0105

### DipHost Related

Issue	Description	Case(s)	Build
527	PmtPosting Room charge slow in SQL SMS Host when dp_trndt is large	896530, 896630	22.82.0417.0023
584	Move deadlock errors from IFPROCERR to Diplomat logging files	898520	22.82.0417.0035
734	Added setting to modify how ota_hotelrateplannotif sends room types with max 3 to Synxis	912540	22.82.0417.0088

### End of Day

Issue	Description	Case(s)	Build
024330	Users blocked from launching Host because they cannot copy Restore_HOSTEOD.FXP	879474, 874481, 882549, 888993	22.82.0417.0017
024644	Only display "Rooms Posted" after autopost data written to the production tables	884620, 887454	22.82.0417.0017
728	Change in-enday.prg to use alternative to totan on / tempeod	901811	22.82.0417.0045
917	Error 1 File \hostplus\log syglmemd.dbf does not exist	906709	22.82.0417.0074

957	File is in use during Host EOD	907572	22.82.0417.0074
-----	--------------------------------	--------	-----------------

### F5 Rate Calculator

Issue	Description	Case(s)	Build
153	[024532] File C:\psms\temp\*.cdx too large when res 330+ Ngt Stay & 240 Unit Types	882170, 882960	22.82.0417.0017
959	F5 outputting incorrect amount when Consolidated Rate Result display is set to Lowest	905597	22.82.0417.0074
1311	Resolved issue causing rate/package detail to occasionally display with \$0 rate	917662	22.82.0417.0105
1823	Incorrect value returned setting 3rd night free using derived rate	920352	22.82.0417.0121

### F7 Availability

Issue	Description	Case(s)	Build
443	Error 13 Alias "TEMPUNIT" is not found in F7-Snapshot	894508	22.82.0417.0017
732	Snapshot is not refreshing immediately when filtered by multi-prop	901550, 901558	22.82.0417.0045
940	Overbooking Log Not Capturing Avl Before, Avl After and Avl+OB After	907055	22.82.0417.0074

### F8 Tape Chart

Issue	Description	Case(s)	Build
1100	Improved F8 filtering between suites and non-suites	917740	22.82.0417.0088

### General Systems Issues

Issue	Description	Case(s)	Build
024384	Err# 2059 / Error 18 Line is too long	882014	22.82.0417.0017
270	Enterprise Batch Folio Transmit Failure (Intermittent 2066 errors system-wide)	889771	22.82.0417.0035
685	Build Clustered Index first / rebuild clustered indexes in Host reindex	896865	22.82.0417.0045
726	Change syUseDbf to retry on 1705	901808	22.82.0417.0045
750	Code that cleans up C:\psms\temp to set error handler sooner	903093	22.82.0417.0059
1013	Addressed issue with the filters being released when attempting to add an OOO record	909030	22.82.0417.0084
1105	Resolved issues with the layout of the Deduper screen	911213	22.82.0417.0088
1164	Added logic to retry when a system error occurs	911051	22.82.0417.0088
1174	Resolved issue where users were unable to login to SMS Host using setuphost.exe v2.5.6.0	913023; 913040;913174	22.82.0417.0088
1239	Addressed issue where system logs user in automatically instead of logging out	915641	22.82.0417.0105

**Gift Certificates**

Issue	Description	Case(s)	Build
424	Printing Gift Certificates prompts twice for printer before printing	893797	22.82.0417.0017

**Golf Tee Times**

Issue	Description	Case(s)	Build
163	[024684] POS receipt not displaying on cancelled spa/golf bookings	869932	22.82.0417.0023
166	[024711] Cancelling tee time only post charges for green fees and not inclusive cart fees	857961	22.82.0417.0017
572	Expired members can be moved on Tee Times	897611	22.82.0417.0035
643	Variable 'PGFOLIO' is not found error in golf tee times	899544	22.82.0417.0035
1848	Changing golf rates was not updating the cart flag	922748	22.82.0417.0121

**Groups**

Issue	Description	Case(s)	Build
172	[024729] Marking group for deletion not deleting any associated scheduled group releases	889723	22.82.0417.0017

**Guest Accounting**

Issue	Description	Case(s)	Build
171	[024726] Remove all references to glUseNewFol ; drop all support for "old folio"	889582	22.82.0417.0017
249	Variable laAmtTrn not found during res calculation when item=0.01 & discount is >50%	884428	22.82.0417.0017
364	Auto-editing taxes does not summarize when voiding	892610	22.82.0417.0017
645	Checks with \$0.00 items not routing properly from Teres	899068	22.82.0417.0035
730	Taxes are posting with incorrect G/L code	902436	22.82.0417.0045
900	Able to move trns code to sub-folio not allowed when trans description check # is '#' not '#-'	906505	22.82.0417.0074
948	"Unable to find key for IN-GTRN" when printing historical folios that outputs reservation value	904904	22.82.0417.0074
909	The Find OOB Condition routine is causing orphaned transactions on Suite reservations	906439	22.82.0417.0074
1047	Restored functionality that keeps the blank row divider visible when editing folios	909354	22.82.0417.0088
1090	Fixed the incorrect posting via the Diplomat interface where charges didn't match in Host	910808	22.82.0417.0088
1247	Fixed an issue where Re-Routing additional groups was not functioning correctly	915867	22.82.0417.0105
1596	Fixed error posting to account that exceeded reservation's usage limits	920032	22.82.0417.0121
1870	Fixed an issue where shared payments were not correctly applied	907551	22.82.0417.0121

**Guests**

Issue	Description	Case(s)	Build
269	When picking waitlist record from open guest tile, the wrong phone number displays	875822	22.82.0417.0017
363	Guest address went from 40 characters to 25 characters after the update	892674	22.82.0417.0017
546	Duplicate profile created when the guest name is longer than profile can store	896695	22.82.0417.0023

**History**

Issue	Description	Case(s)	Build
538	Travel Agent move to history posting op-bal with wrong date	896707	22.82.0417.0023

**Housekeeping**

Issue	Description	Case(s)	Build
024410	Bulk checkout fails to update housekeeping status	883960	22.82.0417.0017
244	[021799] Restoring from OOO doesn't honor setting in FLH1	802400	22.82.0417.0017
686	Unable to add OOO if reservation is OUT on date OOO is starting	900806, 900855, 901010	22.82.0417.0035
708	Alias 'DPEVNTLG_6NP12NEDL' is not found changing date on OOO	901665	22.82.0417.0045
967	Out of order duration should be limited to 300 days	907513	22.82.0417.0074
1067	OOO Use Dates button needs to update the duration	910585	22.82.0417.0084
1592	Resolved issue with the Room Feature filter not functioning in the Out of Order screens	920035	22.82.0417.0121

**Makedemo**

Issue	Description	Case(s)	Build
1035	Addressed issue with Makedemo truncating the address fields for owner 1099 processing	909365	22.82.0417.0084
1601	Fixed an issue where Makedemo errored out	920260, 920887, 921314, 921797, 922882	22.82.0417.0121

**Members**

Issue	Description	Case(s)	Build
024491	Membership Minimum Shortfall posting not filtering correctly	884536	22.82.0417.0017
143	[024441] Member Statements not added correctly to MB_STMD using R&R member folios	884301	22.82.0417.0017
694	Error printing/viewing PDF member statements	900876	22.82.0417.0045
769	Error 1 tempcn.pdf does not exist generating statements	903634	22.82.0417.0059

## Owner Accounting

Issue	Description	Case(s)	Build
024428	"Index tag is not found" error looking at owner inventory	884051	22.82.0417.0017
141	[024697] Auto-Post owner charges not posting to codes in position 4-8 on contract	888450	22.82.0417.0017
309	RR3A7 Owner Statement is not showing previous year data	891372	22.82.0417.0017
370	Issues with reciprocal pooling with suite components	888035	22.82.0417.0017
746	Usage Plans should not be required to generate owner res in batch w/ owner activities disabled	880456	22.82.0419.0059
754	PDF-ed owner statements are being attached to the 1st owner incorrectly	903128	22.82.0419.0059
768	"File is in use" error running OA-OST9A statements for individual	903482	22.82.0419.0059
805	Manage owner/member/city ledger statement picklists need to exclude statement detail	903191	22.82.0419.0059
835	Owner and membership recurring charge results display issue in SQL	902044	22.82.0419.0059
860	Escrow and maintenance balance is not correct on oa-ost9a statement	905671	22.82.0417.0066
861	OA-OST9A statement is not showing transactions that are undefined in OA_SETUP	905671	22.82.0417.0066
877	OA-OST09A owner statement not showing credits when transaction detail is selected	906221	22.82.0417.0066
912	OA-OST9A not showing prior transactions YTD correctly	906195	22.82.0417.0074
946	OA-OST9A report prompt, " Start Summary on new page", not working correctly	905619	22.82.0417.0074
1049	Resolved error that occurred while running the owner post an entered percentage utility	910302	22.82.0417.0084
1062	Resolved an issue where Auto-Post Owner Charges is not posting to SLD contracts	910297	22.82.0417.0084
1071	Corrected file in-use error that occurred when distributing interest to owners	910680	22.82.0417.0084
1063	Trans detail can be displayed for units in non-fixed inventory config on OA-OST9A statement	908213	22.82.0417.0093
1229	Resolved error running quarterly OA-OST9A owners statement	914687	22.82.0417.0093
1261	Fixed an issue where only the first contract prints the summary	908213	22.82.0417.0105
1262	Owner posting tool Entered % is not filtering correctly on Multi-Prop	916768	22.82.0417.0105
1284	Corrected "Index tag is not found" error posting to owner contract in SQL	917275	22.82.0417.0105
1269	Corrected issue where OA-OST9A statement is printing Total Direct Expenses incorrectly	916787; 917698	22.82.0417.0105
1328	OA-OST9A owner statement - Financial summary is not printing for one owner	917202	22.82.0417.0121
1575	"Edit Owner Information" user clearance is not working correctly	919773	22.82.0417.0121
1705	Resolved "Variable 'PcManager' is not found" error running Monies held in Trust report	921032	22.82.0417.0121
1732	Resolved issue where the OA-OST9A owner statements showing the incorrect multi-prop name	920622	22.82.0417.0121
1747	Addressed issue with R&R owner statement including historical bookings	921404	22.82.0417.0121
1800	Owner Check is posting to owner transaction table (OA_OTRN) with blank check number	921896	22.82.0417.0121

**POS**

<b>Issue</b>	<b>Description</b>	<b>Case(s)</b>	<b>Build</b>
456	Virtual printer option in character SMS POS is being ignored	877577	22.82.0417.0023
468	Performance issue accessing POS historical checks	895129	22.82.0417.0023
627	Reopened checks not being closed properly with non-taxable items	897016	22.82.0417.0035
896	POS Partial room charge posting incorrectly to check	905938, 907456	22.82.0417.0074
1275	Addressed issue with POS Discounts posting without a transaction code during end of day	916956	22.82.0417.0105
1584	Corrected " Must specify additional parameters" error while using POS return functionality	919885	22.82.0417.0121
1599	Credit Card on File button is missing in POS when doing returns.	920002	22.82.0417.0121
1778	Addressed issue with postings exceeding group limits by the amount of tax on the check	921805	22.82.0417.0121

**Rates and Packages**

<b>Issue</b>	<b>Description</b>	<b>Case(s)</b>	<b>Build</b>
250	Variable laAmtTrn not found during reservation calculation process	884428	22.82.0417.0017
448	Improve performance of saving new rate version in SQL Server	889924	22.82.0417.0023
642	Improve performance of batch reservation value calculation under SQL	898741	22.82.0417.0035
697	Variable 'PACKAGE' is not found (sywrite) when user Selects Rate at F5 Override	901784	22.82.0417.0045
827	Duplicating rates is duplicating rate detail	904062, 904685	22.82.0417.0059
845	Variable 'LARMTYPE' is not found with invalid room type in rate setup	905114	22.82.0417.0066
846	Improve performance of rate setup when user performs a Zoom/Edit on a rate price detail item	905114	22.82.0417.0066
848	Escaping from the rate detail edit screen causes detail items to double in SQL	905114, 906232	22.82.0417.0066
863	Incorrect value returned when the rate has derived rate rule 1st/last night components	905509	22.82.0417.0066
953	System error 12 "Variable 'LAPEOPLEPERM' is not found" sending rate with begin date	907445, 907517	22.82.0417.0074
966	Rate Detail items not being updated with the correct version under some circumstances	906961	22.82.0417.0074
1015	Resolved issue where rate remains a base rate until a pack is completed	908923	22.82.0417.0084
1017	Clarified prompt displayed when setting up derived rate on base rate	908923	22.82.0417.0084
1043	Addressed Error 12 variable 'TYCOD' not found accessing the Channel Manager screen	910150	22.82.0417.0084
1101	Fixed the issue where some room restrictions were ignored via the Diplomat interface	909854; 911569	22.82.0417.0088
1159	Diplomat improperly calculating resort fees	894756	22.82.0417.0088
1189	Incorrect rate being selected with use of the group template in certain circumstances	907126	
1223	Corrected issue where Channelrateplaninquiry was sending incorrect rates when package		

	component was not for SMTWHFS	914724	22.82.0417.0105
1245	Addressed issue where package routing limits were being ignored when the POS check contained negative items	914890	
1249	Fixed an issue when making changes to yield controls	915904; 916212	22.82.0417.0105
1594	Yield controls disappearing from screen while editing and scrolling without saving	919898	22.82.0417.0121
1604	Fixed an issue where the season link is shorter than the reservation stay	919479	22.82.0417.0121

## Reports

Issue	Description	Case(s)	Build
024392	RR3II report - Error 1098 Time to update Alias List or create a new subclass table 9k4	882858	22.82.0417.0017
024583	Error 11 tbprinter line 1301 when IN_PSET has no network Printers	886574	22.82.0417.0017
180	Hyatt EBS Report is not exporting \$ in front of the sub-market segment	889673	22.82.0417.0017
245	[024369] Variable 'RES' is not found printing the RR4K3	887462	22.82.0417.0017
257	RR5AR displays incorrect name for mini-group reservations when run in summary	813408	22.82.0417.0017
267	[023176] Marking report as un-favorite displays unknown member calling form error	859709, 878442	22.82.0417.0017
268	[021520] Alias not found error running recalc owner values and then going to reports	815276	22.82.0417.0017
316	RRXB Hyatt EBS Export Report running Ad Hoc getting Data type mismatch error	891856	22.82.0417.0017
317	RR4M9-Market Analysis report not pulling room category description even though setup	891890	22.82.0417.0017
328	Handle spaces in filename when previewing reports	879395	22.82.0417.0017
